

Recommended Procedures

Required Materials:

- Stera-Sheen Grill Cleaner
- High-Temperature Grill Brush or Grill Pad Holder with Pad
- High-Temperature Squeegee
- Wet Towel

Procedures:

1. Set the grill temperature to 275-325 degrees
2. Pour 2-3 oz. of Stera-Sheen Grill Cleaner on grill surface
3. Evenly spread the grill cleaner with the high temperature grill brush or grill pad holder & grill pad
4. Let the heat do the work and allow product to sit for 20-30 seconds
5. Pull the product off the grill with the high temperature squeegee
6. Wipe down the grill with wet towel
7. Season grill before cooking
